

Thank you for your interest in the 'Three Bones' deep hooks from Bare Bones Lock Picking!

These three deep hooks have been created from a collaboration between Bare Bones Lock Picking and the extremely talented [The Butchers bLock](#)

[The Butchers bLock](#) hosts a You Tube channel covering all aspects of locksport, including custom pick and handle making. As an accomplished locksporter, [The Butchers bLock](#)'s knowledge and skill in pick design has greatly influenced the direction of these three deep hooks. Bare Bones Lock Picking is extremely grateful to have his experience and involvement in making these three profiles possible.

So you get the most out of the picks, we have prepared a few points.

- Hook 1 – aka 'Collar Bone' is the shallowest of the 'Three Bones' deep hooks. Its profile is merged from an extended reach medium hook with one of [The Butchers bLock](#) custom designs.
- Hook 2 – aka 'Back Bone' has the medium steepness of the 'Three Bones' however has the thickest shank profile that finishes to a small gem tip. Its profile is merged from a steeper version of the 'Collar Bone' with another one [The Butchers bLock](#) custom pick designs.
- Hook 3 – aka 'Jaw Bone' is the steepest of the 'Three Bones'. It also has the narrowest tip which finishes to the sharpest gem tip. Its profile is merged from an even steeper version of the 'Collar Bone' with another one [The Butchers bLock](#) custom pick designs.

The three profiles are available in .015 and .023 thickness and can be purchased as a set through our website
